

**REMARKS**

Upon review of the response submitted September 11, 2007, Applicant noted that Claim 1 had been incorrectly amended. Although, the curable molding material molded by the non-rib region of the flexible mold has a thickness less than the planar portions that connect the grooves, the non-rib region of the flexible mold has a thickness greater than the planar portion that connect the grooves.

Respectfully submitted,

November 30, 2007
